PROFESSIONAL PROFILE

Founder and operator of CL40 World, a digital music and media ecosystem focused on catalog organization, rights-management workflows, platform access, brand documentation, and international communication. Practical experience building public portals, evidence trackers, platform-link systems, catalog files, and review-ready operational documents for remote company/platform communication.

CORE STRENGTHS

- Operations management: evidence trackers, workflows, platform audits, documentation systems.
- Digital infrastructure: domains, public hubs, team portals, contact pages, press pages, and catalog support files.
- Catalog and rights organization: metadata review, distributor exports, proof folders, platform links, and status tracking.
- Company communication: professional emails, partner outreach, platform support messages, and review-ready summaries.
- Marketing and visibility: YouTube, Spotify, Instagram, Reddit Pro, LinkedIn, press cards, and audience research.

PROFESSIONAL EXPERIENCE

Founder & Operations Lead - CL40 World / WR Beats | Tangier / Remote | 2024 - Present

- Built and organized CL40 World as a professional digital brand ecosystem for music, media, team operations, and public communication.
- Created evidence-tracking systems separating official links, proof types, proof status, notes, and next actions for company/platform review.
- Managed domains and public hubs including cl40.contact, cl40.world, team.cl40.world, press pages, store links, and catalog access files.
- Prepared platform proof packs using screenshots, analytics references, official URLs, catalog exports, and rights-management notes.
- Handled artist/catalog operations across distributors, music platforms, social platforms, and professional communication channels.

Recording Artist / Producer - Chico Loco 40 | 2014 - Present

- Independent Moroccan rap artist building a dark cinematic sound across alternative rap, drill, trap, and digital media.
- Developed release planning, visual branding, platform descriptions, metadata, and audience-growth strategy for YouTube and streaming platforms.
- Maintained public artist identity, press material, platform links, and evidence folders for professional review.

SELECTED PROJECTS
